

# CREATING ART WITH NATURE: *Leaf Rubbings*

Leaf Rubbings are a fun and creative way to explore nature! There are many ways to create leaf rubbings - all you have to do is collect some leaves that interest you, place them under your piece of paper, and run a crayon or pencil over it to transfer the pattern! You can shade in the drawing, create a silhouette, make a collage, keep a record book, and more!

Check out the pictures below for some ideas!
