

Sun Shadow Drawing

A shadow is a dark shape that is formed when an object blocks a source of light. On a sunny day, practically everything casts a shadow — including you!

DIRECTIONS

For this activity, you will be using the sun and a variety of toys/items to create fun shadow shapes!

Set up your item so that it casts a shadow on your piece of paper, trace the shape, then finish the project by adding your own artistic details. Let your creativity guide you!
